Opera VII

IN VENETIA M. DC. LXII. Apresso Francesco Magni detto Gardano A

ILL.mo ET ECC.mo SIG. PATRON COL.mo

CHe dalle muſiche conſonanze ſempre l'anime più grandi prendano diletto, è atteſtato della più verace dottrina; poi che la ſolleuatezza degli ingegni più ammirabili non ſolo trà le pitagoriche armonie alle cognitioni più alte s'auuanza, ma gode ancora fra regolati concenti del proprio Apollo le gratie. Eſcono queſti miei componimenti con augurio ſecondo alla luce, perche nacquero ſotto la nobiliſſima & eruditiſſima protettione di V.Ecc. e queſti *miſurati intervalli della voce* nel vederſi ſegnati nel di lei nome, non meno alle di lei glorie portano il mio oſſequio infinito, che à ſe ſteſſi la ſicurezza d'ogni proſperità. Fù la muſica da Platone deſcritta ſimile alla guerra & alla Academia; ſi che per legge giuſtiſſima ſi deuono tributare queſte mie muſiche aplicatio ni al di lei nome, quale fra gli armati tumulti di Bellona hen ſpeſſo inſegnò al fiato delle trombe vittrici il dolce ſuono del proprio gri do, o ſu le più erudite paleſtre eccitòſſi l'applauſo de metri più glorioſi. Eſſer l'anima noſtra vn'armonia ſcriſſe quel ſaggio; laonde per immenſe mie obligationi douendo à V.E. offerire tutto me ſteſ ſo, che ſolo ſpiro l'aura del di lei patrocinio in queſte muſiche note il cuore & ogni mio affetto ſagrando humilmente le inchino
